YOUR RESULT

Understanding your Profile Strength

Your Profile Strength is a percentage that groups into one of three bands. It reflects how well your profile currently fits typical requirements — it is not a guarantee of any outcome.

STRONG

A well-matched profile. Your background aligns well with common requirements. Creating your portal unlocks your recommended visa type and best-fit countries.

MODERATE

A promising profile with some gaps. A few areas may need strengthening or extra documents. Your portal shows exactly what to focus on.

WEAK

Needs review. Some key areas may need attention before applying. Our experts can suggest the best route forward inside your portal.

What the result includes

- Your Profile Strength % and band
- A short list of suggested destinations
- A pointer to your recommended next step
- Your Welcome & Login Guide (auto-download)

What's inside your portal

- Your **full** eligibility report
- Recommended visa type & countries
- Document upload & live status tracking
- Expert review of your profile

Next step: create your World Slick portal to see your full report and begin your application. Follow your **Welcome & Login Guide** to set up your account in minutes.
